PROFESSIONAL SUMMARY

Driven final-year B.Tech IT student specializing in full-stack development, proficient in HTML, CSS, JavaScript, React, Node.js, and SQL. Skilled in building secure, scalable web applications with a focus on automation and performance optimization. Experienced in backend integration and database management, with strong problem-solving abilities and cross-functional collaboration skills.

EDUCATION

Galgotias College of Engineering and Technology

Bachelors of Technology in Information Technology

SGPA: 7.98

2021 – 2025

Greater Noida

R.R.K. Sr Sec School

Intermediate

Percentage: 88.8%

2019 – 2020

Chandausi

PROJECT

NOTE MASTER | MongoDB, Express.js, React.js, Node.js, Firebase

Aug 2024

- Developed a MERN stack-based web application to help students and professionals organize, store, and access notes seamlessly across devices. Enables users to register, login, create, rename, update, and delete notes.
- Implemented a full-stack web solution leveraging responsive design principles and implementing robust backend functionality using RESTful APIs.
- The tool offers customizable text formatting, unlimited cloud storage, and secure authentication using OTP-based email verification.

CONTACT APP | React.js, Firebase

May 2024

- Developed a responsive web-based application designed for efficient employee contact management.
- Featuring a user interface with dynamic user cards displaying name, email ID, phone number, technology domain, and experience which when clicked display the detailed information of selected user.
- Used ReactJS for a modular, dynamic UI and Firebase for real-time data handling and authentication.

PORTFOLIO | HTML, CSS, JavaScript

Dec 2023

- Designed a personal portfolio to showcase my skills, projects, and professional experience, providing visitors with an engaging and informative experience.
- The portfolio features a modern and responsive design, ensuring seamless accessibility across different devices, including desktops, tablets, and smartphones.
- It incorporates smooth animations, intuitive navigation, and an organized layout to enhance user experience.

LANGUAGE TRANSLATOR | Python, Google API key

May 2023

- Python-based application designed to facilitate real-time language translation between multiple languages using Google Translate API.
- Features a graphical user interface (GUI) built using Tkinter allowing users to input text in one language and receive an instant translation in their desired language, making communication across different languages seamless and efficient.
- Ensures accuracy and speed by leveraging Google's translation services, making it suitable for personal, educational, and professional use.

TECHNICAL SKILLS

Languages: C, C++ (proficiency), Python, Basics of Java

Database: MySQL, MongoDB, Firebase

Development: HTML, CSS, JavaScript, React, Responsive Web Design

Coursework: Data Structures and Algorithm, Operating System, Web Technology, OOPS, Database Management System, Computer Networks

Others: Presentation skills, Communication skills, Leadership, Team work

ACHIEVEMENTS

- Certified in Data Structures in C++ from Udemy
- Certified in Python Programming from Coursera
- Solved 200+ questions at LeetCode and 5 Star at HackerRank
- Recognized for best product idea at product launch event
